 Ashley has been working with me on getting my knees back on track. She is the best. She know exactly where to work on and places I didn't even know were hurting.

 I am so impressed with Boulder Therapeutics. My therapist was great about listening to me tell her what the problems were and then addressing those issues. It was my first time and she used trigger point massage. I felt relief right away and have had more range of motion since our session. Love the attitude and the helpfulness of my therapist.

I appreciated David's full explanation of what was being done and why. This makes me more likely to keep up with my "homework."

The 30th Street Boulder office was a little difficult to find (tucked back off the street a little bit), but once I arrived the experience was incredible. Chrissy was my masseuse, and she was bright, friendly, professional, and knowledgeable. Very relaxing, stress-free environment, great massage, even good music (my choice). Will be making regular appointments here.

Ashley Simmons has been terrific. She is prepared, on-time and extremely knowledgeable and supportive. She has helped w/ a condition (trigger points) that my health provider (Kaiser) misdiagnosed and did almost nothing,

I WOULD ABSOLUTELY RECOMMEND HER!!

A little slow on the admin side, but otherwise good service.

Comments from the business

Thank you for this feedback. We appreciate your honesty and will look into ways to make scheduling and other administrative processes flow more easily. We do have an online scheduling system available 24 hours/day if you are unable to reach us. Feel free to call our owner at 303-444-1171 if you have any other concerns.

Ashley is quite good at deep tissue massage. I do miss a therapist who is trained with broader scope of methods but having experienced those in the past, I can seek out when needed. Ashley keeps me tuned up and is very pleasant.

Comments from the business

We encourage you to request more advanced methods to your therapist if you feel they will be helpful for your treatment. All of our therapists are trained in advanced techniques and some are more proficient than others. I will pass this information along to Ashley, as she is very highly trained, and I'm sure she'll be able to accommodate your needs. Also, please review our bios to see if, perhaps, another one of our therapists could be a better fit. Our Sports & Injury specialist is also available if you are in need of very advanced technical work. Thank you for your comments.

They opened just for me and worked on my back, shoulders, neck and calves. You should definitely come here to get what you need.

Ashley S. did a great job and listened to my rambling on. I will most definitely be going back.

We are so glad we had Jessica come out to do our corporate massage. Everyone loved her and enjoyed the work she did as well as how pleasant she is. I will definitely be referring her and Boulder Therapeutics to anyone that will listen. Thanks for everything!

I am always given useful information to apply outside of the appointments. I have felt the therapist is knowledgeable, and I have generally been pleased.

Wendy is a great massage therapist! She has been with me since my hip surgery several months ago and has increased range of motion in my hip joint, relieved tension in other parts of my body, and been very encouraging in my recovery. I've been going to Wendy weekly for several months and she always makes my body feel better and lifts my spirits.

Ashley is the best massage therapist that I have ever been to. I practically live for the days that I have an appointment. She has helped my headaches and neck tension so much. I very seldom get migraines any more.

May 5, 2013 anonymous

very friendly, professional and good hands.

May 2, 2013 lynnk, Broomfield

I have had a lot of massages since back in college. Ashley is one of the best around. She is very very thorough with the massage and the explanation of treatment. I lucked out finding her.
